

Attention

The Board of Commissioners of Brown County is soliciting contractors in all the trades who are interested in future county projects. Interested contractors must complete a data questionnaire that will support a data base of qualified contractors. As projects become available, notice will be sent to all contractors in the data base with information about the project and further instructions on how and when to quote or bid. For projects under \$75,000, no newspaper notifications will be made. All qualified contractors are welcome. Contractors must be insured, bondable, and licensed in Brown County, Indiana.

The data questionnaire may be obtained in the Planning and Zoning office during normal business hours. You may also request one by email: thompsonme@browncounty-in.us. If you have questions, you may contact the County Resource Manager, Dr. Michael Thompson, 812 988 4019.
